

OAE (Covid) Catch up plan- September 2021 update

Covid catch up cohort = Those children who have fallen behind as a result of the extended school closure period due to Covid 19 and are in need of some specific targeted catch up work to address these gaps.

Catch up plans

Identify

Identify the students who have fallen behind as a result of time lost due to Covid 19.

Gather information from HoDs, teachers and Learning Managers.

Establish what the gaps are

- Be specific - subject, topic, key learning points etc
- Is the issue more related to confidence than subject content?

Quality first wave teaching remains the most effective way for students to catch up but for some, specific targeted intervention will be required.

Intervention

Intervention	Details	Costing	Children benefiting
I to I Tutors	I to I Tutors work predominantly with Y11 students to 'fill the gaps' targeting specific students.	Reallocation and redeployment of existing I to I Tutors	Approx. 100+
Mental Health support	For those students struggling with issues such as self-confidence and self-esteem	£6000	Approx. 20+

	following the lockdown/closure period. School coach is available across the academic year.		
Tutor group literacy and numeracy	Seconds in department and outstanding teachers delivering 2-3 sessions of literacy or numeracy a week for Y7-10. Literacy 1 Y7, 1 Y8, 2xY 9 and 2xY10 Numeracy/maths 2x Y7 (numicon), 3 x Y8, Y9 x2, Y10 x 6	£14858	Approx 100
GCSE Pod	For Y11 students to help close any gaps in science.	£576	128
PLC intervention (in the Bridge)	PLC manager supporting students who have found lockdown and covid very difficult. This supports mental health.	£3000	10
Supervised Study P16	1 period of supervised study for each P16 student to complete their practise. This allows more lesson time for learning. 13 sessions a week for P16. 1 session per student.	£2000	60
