

HEALTH T LEVEL

A two-year Level 3 course combining scientific knowledge, practical healthcare learning and workplace experience.

Develop confidence, communication and teamwork while learning to provide safe, compassionate, person-centred care.

Equivalent in size to three A levels, with routes into employment, apprenticeships and higher education.

WHAT YOU WILL LEARN

- The healthcare sector and professional responsibilities.
- Human anatomy, physiology, core science and disease.
- Person-centred care, safeguarding and wellbeing.

You will also study infection prevention, safe working, clinical practice, confidentiality and accurate records.

Specialist learning develops skills for the healthcare pathway delivered by the academy. Ask the Post-16 team about the pathway available.

LEARN IN THE WORKPLACE

At least 315 hours

Approximately 45 placement days across the two-year course, alongside academy study and practical learning.

Our links with Mid Yorkshire Teaching NHS Trust support opportunities to experience healthcare settings, apply your learning and develop professional behaviours.

Clinical areas, duties and placement arrangements depend on availability, student suitability and provider checks. Your timetable and induction arrangements will be shared before you start.

HOW YOU WILL BE ASSESSED

- Two externally assessed core examinations.
- An employer-set project applying your knowledge to a healthcare brief.
- Occupational specialist assessment of relevant knowledge and practical skills.
- Completion of the required industry placement to achieve the full T Level.

PREPARE FOR PLACEMENT

Required T Level uniform and suitable footwear. Preparation may include DBS checks, occupational health clearance and induction. The Post-16 team will explain costs and bursary support for eligible students.

ENTRY REQUIREMENTS

5 GCSEs

at Grade 4 or above

Including English, mathematics and science.

Be ready for scientific study, practical learning and the professional expectations of a healthcare placement.

WHERE COULD HEALTH TAKE YOU

Progress to healthcare support employment, relevant apprenticeships or higher education, subject to each employer's or provider's entry requirements.

Further-study interests may include nursing, allied health professions and related health subjects.

Regulated professions require further approved training and registration. The T Level does not itself qualify you as a registered nurse.

Speak to the Post-16 team to explore how the course connects with your interests and career plans.
