YEAR 7

What are we studying?

Subject	This Term We are Studying...
Art	Baseline Assessment and Endangered Animals: Students will complete a baseline assessment drawing of a tiger to define starting point/gain an understanding of prior knowledge. Students will then be introduced to the formal elements of line, shape, form, tone and texture with a focus to cover all aspects of the assessment framework and develop control skills.
DT	Students in DT will work in a carousel system, changing each term and will either study: Product Design: Litter Picker Project Hospitality & Catering: Essential Skills in Food Textiles: Essential skills with a focus on creating a protest banner Graphics: Essential 3D making skills producing a 3D house model
Computer Science	The Outwood Welcome: Students will learn about the importance of passwords to protect their digital information. They will be introduced to the G-Suite range of programmes before looking at remaining safe online and communicating safely online. Google Workspace: Students begin by looking at all the tools available in Google Suite to help them organise a music festival. They will start with using Google Sheets to help create a simple budget. Students will then look at Google Docs, Google Slides and Google Sites to give them a firm foundational knowledge of the tools available in Google.
Geography	How am I connected the world of geography? Students will learn about why geography is relevant to them by examining factors such as where their food and clothes come from and the impact of their mobile phone usage on the environment. The unit will also focus on key skills such as OS map skills and latitude and longitude. What are ecosystems like? Students will examine where global ecosystems are located and what they are like. There will be a particular focus on Polar environments, looking at the climate, what life is like there and the wildlife that live there.
History	Why were the Silk Roads and the city of Baghdad significant in shaping the medieval world? Students will learn about the Silk Roads and why the city of Baghdad played a vital role in shaping the medieval world by driving cultural exchange, economic growth and intellectual progress. Students will also learn about how the Silk Roads were more than trade routes; they facilitated the exchange of ideas, knowledge and inventions across different regions. How disruptive were the Normans? Students will have the opportunity to explore the legacy of the Battle of Hastings - the disruption unleashed on England as Norman control spread. Students will learn about evaluating change and continuity and this unit will give students a solid grounding in the politics, religion, economy and society of 11th century.
Religious Studies	What is religion, belief and worldview? Students are introduced to different religions and views of the world, including looking at the difference between Abrahamic and Dharmic religions. Has Britain always been a multicultural society? Students will examine the ways in which Britain has always had a mix of cultures and backgrounds throughout its history and also how society is changing all the time.

YEAR 7

What are we studying?

Subject	This Term We are Studying...
