

## RELIGIOUS STUDIES, CITIZENSHIP AND PERSONAL DEVELOPMENT

### Religious Studies, Citizenship and Personal Development

#### **Why is the study of Religious Studies, Citizenship and Personal Development important?**

Our provision for Religious Studies, Citizenship and Personal Development (Relationships, Sex and Health Education) is coherently implemented across the Trust and importantly localised to meet the unique identity of each academy and its community. As academies we are not required to follow the Locally Agreed Syllabus for Religious Education, however we have chosen to incorporate the key concepts from our Local Authorities to best support the needs of our academy communities.

Religious Studies, Citizenship and Personal Development are taught through allocated curriculum time, Personal Development Days and supplemented through our tutor and assembly programme. Within the curriculum, Religious Studies, Citizenship and Personal Development are taught, along with the flexibility to cover other key learning relevant to the current and emerging needs of our students and local communities.

At Outwood Academy Hindley we offer Religious Studies as an option subject for those wishing to study the subject to GCSE. We follow AQA Route A, studying Christianity and Islam and themes of:

- Relationships and families
- Religion and life
- Religion, crime and punishment
- Religion, human rights and social justice

Our daily tutorial and assembly programmes support our students' personal development and understanding of these important aspects of our curriculum. A wealth of opportunities designed across the academic year provide both whole school and age appropriate events, programmes, trips and visits. For example Year 7 participates in a Christmas service at our local church, we have a democracy focused visit to London and an overseas trip to Berlin. We promote national and local awareness campaigns, observe local and national commemorations and celebrate diversity, empowering students to engage more widely in their personal, social, health, moral, spiritual, cultural education. Recent examples of this include Hello Yellow Day, Holocaust Memorial Day, UK Parliament Week and Anti Bullying Week.

Opportunities such as our Random Acts of Kindness initiative or Student Voice and enrichment programmes operate in our academy reflecting the needs and concerns of the student body such as Student Voice, Alpha and homework club.

The most important and guiding factor when devising our curriculum is to ensure that our students are given all the skills, knowledge and experience they need to effectively prepare them for their future in an ever-changing world. Our intent is to equip our students as global citizens and support them in becoming an efficient and contributing member of society who is able to stay safe and care for those around them.

### **What skills will the study of Religious Studies, Citizenship and Personal Development teach you?**

There are many explicit and implicit skills actively developed throughout our curriculum. These include:

- Empathy
- Interpersonal
- Evaluation
- Analysis
- Critical thinking
- Problem solving

### **What will you know and understand from your study of Religious Studies, Citizenship and Personal Development?**

#### Spiritual, Moral, Social and Cultural (SMSC) development and appreciation of British Values

British values and SMSC are integral parts of academy life; however, by their very nature they will be addressed more frequently and in more detail during Religious Studies, Citizenship and Personal Development lessons. These areas focus on the development of the whole student and are whole academy responsibilities. Academies are conscientious in accurately mapping these aspects of the curriculum both across lessons and within the whole academy experience.

#### Personal, Social, and Health Education (PSHE) and Relationships, Sex and Health Education (RSHE)

From 2020, RSHE is a statutory requirement in all schools in England. Our academy maps the requirements of RSHE across subject delivery and through age appropriate guidance delivered within our tutorial and assembly programmes and calendared year group events that are delivered by external agencies and groups such as The British Heart Foundation. Subject leads ensure they are familiar with the statutory guidance and regularly check for updates or changes to the guidance. Within this curriculum there are a range of laws which students are introduced to, supporting their understanding of the modern society to which they belong.

PSHE and RSHE are whole academy responsibilities, so whilst a large part of this curriculum will be covered in lessons it is not restricted to this subject but rather it underpins our academy's wider curriculum delivery. We are conscientious in accurately mapping our compliance and regularly reflect and update this. We are supported by health professionals in partnership with the Local Authority in delivering elements of the RSHE requirements.

### **How does your study of Religious Studies, Citizenship and Personal Development support you in other subjects?**

All subjects across the curriculum support the exploration of PSHE, RSHE, SMSC and British Values coherently mapping appropriate aspects of this coverage to their subject schemes of work for example Rule of Law, Democracy and Individual Liberty are taught through History whilst English and the Arts support the appreciation of the influences that have shaped our heritage and those of others. Our Computing departments teach online safety, PE fosters an awareness of physical health and fitness and Science teaches the facts about puberty, reproductive health, including fertility and the potential impact of lifestyle on fertility for men and women. By doing this we not only develop and deepen the knowledge our students have, but to also ensure that we have a coherent, consistent delivery model.

### **How can you deepen your understanding of Religious Studies, Citizenship and Personal Development?**

Independently: Read/watch/listen to the news.

With your family or friends: Discuss topical stories. Debate.

Our course provides: Visits to places of worship, outside speakers from religious leaders from Christianity and Buddhism, organisations that link to topics studied e.g. The Brick Street Pastors.

Optional overseas visit to Berlin.

### **How are you assessed in Religious Studies, Citizenship and Personal Development?**

There are a number of formal assessment points each year which we use to inform our Praising Stars© data entry. These are referred to as checkpoints and include content from prior learning as well as the most recent content. These require students to apply knowledge to a variety of tasks building in complexity and challenge over the years.

The GCSE qualification is a 100% written examination.

#### **Key Assessment Objectives**

Paper 1: Christianity (60mins)

Paper 2: Islam (60mins)

Paper 3: Themes (Relationships, Life & Death, Good and Evil, Human Rights (120 mins)

**AO1** Demonstrate knowledge and understanding of religion and belief\*, including:

- beliefs, practices and sources of authority
- influence on individuals, communities and societies
- similarities and differences within and/or between religions and beliefs

**AO2** Analyse and evaluate aspects of religion and belief\*, including their significance and influence

\*including non-religious views

Informal assessment takes a number of forms including verbal contribution, homework, low stakes quizzes, timed writing and practice examination questions. We assess how students at their current stage of study are on track to reach their end of stage targets which are formulated on aspirational expectation from their KS2 starting points. We make an informed prediction from our holistic assessments based on our subject mapping of expectation across the Religious Studies curriculum.
